

## **PUBLIC ANNOUNCEMENT**

### **SFOBB West Approach Seismic Retrofit Project**

#### **REBUILDING THE HARRISON STREET OFF-RAMP**

- Reconstruction of a new Harrison Street Off-ramp is underway. Since the demolition on November 4, 2005, the contractor has continued with the work in this area. The work consists of the construction of new columns and piles in or near the locations of the old columns.
- Additional construction activities such as erection of falsework to support the new deck, retaining walls and concrete pours for the new bridge will be ongoing until Fall 2007.
- Parking is not be permitted on the north side of Bryant Street.
- Workdays may vary, however, the hours for this operation are generally from 6:00 AM to 5:00 PM on days when work is in progress.
- Although sound monitoring will be in place for all operations, neighbors may hear some construction noise throughout these activities.
- The anticipated opening of the new Harrison Street Off-ramp is currently scheduled for Spring 2008, after all roadway items related to ramp connection to the upper deck of the Bay Bridge is completed.
- Construction operations are weather dependant and subject to change.
